ABDOMINOPLASY (TUMMY TUCK) INSTRUCTIONS (IN ADDITION TO GENERAL INSTRUCTIONS)

PRE-OPERATIVE INSTRUCTIONS

- Do NOT smoke at least 4 weeks prior to surgery
- Do NOT take ASPIRIN or aspirin-containing products
- Remove any jewelry or adornments of the abdominal area and belly button prior to surgery
- Please have your prescriptions filled prior to surgery

POST-OPERATIVE INSTRUCTIONS

- Keep the head of your bed elevated at all times, avoid laying flat or standing up perfectly straight during the first week; pillows under the knees are helpful
- If a binder has been authorized, wear around the clock during the first 2-3 weeks, it may be removed to shower
- Do NOT take pain medication on an empty stomach, this can increase nausea
- Swelling and bruising is to be expected, especially in the flank, lower abdomen and pubic areas; this will resolve over several weeks
- You may shower, however, Do NOT allow incision sites to be submerged under water
- Drain care will be instructed by the nurse or physician, please obtain our "drain care" instructions to assist in measurements
- Steri-Strip (white) tapes on incision sites will come off on their own, please do not remove these
- Do NOT lift or push anything greater than 20 pounds
- Do NOT engage in strenuous exercise and vigorous aerobic activity for 4-6 weeks. Walking and gentle exercise is permitted
- Sutures are generally dissolving and will not need to be removed unless otherwise noted
- Please do not drive until instructed by your physician

NOTIFY THE OFFICE IF YOU EXPERIENCE ANY OF THE FOLLOWING:

- **Your abdomen becomes markedly swollen and tender**
- **If you develop a temperature above 101.5° F**
- **If you develop redness (like a sunburn) on your body**

PLEASE CALL THE OFFICE (410) 590-4313 IF YOU HAVE ANY QUESTIONS OR PROBLEMS.
(Patient or person authorized to consent for the patient)
